OFYR® MANUAL GRILL

Thank you so much for buying an OFYR® product. This manual contains setup instructions, warranty conditions, and additional information about our Grills.

Grills

The OFYR® grill is a robust accessory that can be used for various types of cooking, combined with a pan or on its own. When using the grill, your food may burn if the flames get too high. We are not liable for any health issues resulting from eating burned food prepared on our grill. The grill must be cleaned and oiled after every use. Then store it with its holder in a dry room to prevent corrosion from forming. We are not liable for any corrosion forming on the grill.

Please note that you should place the grill and its holder over the hole in the cooking plate before you start cooking. While you are cooking, both the grill and the grill holder will grow very hot. For this reason, you should only ever remove the grill from the griddle top wearing heatproof gloves.

Skewers

The OFYR skewers feature a set of 3 (85 cm or 105 cm) with stainless steel blades and wooden handles. Easy to clean; heat and wear-resistant. Please remove the silicon stop from the end of the skewer before grilling.

DON'TS

Please note that the optional OFYR® grills should never be moved during use!

Please note that the grills can reach temperatures of up to around 300° C and thus are not suitable to move during and/or right after cooking without using heat-resistant gloves. We are not liable for any burn injuries resulting from people touching the grills during and/or after cooking.

Do not use our grills in an inside area without using a certificated ventilation system.
